Anarchism in America is a colorful and provocative 1983 documentary that attempts to dispel popular misconceptions about anarchism in the United States. It includes interviews with influential anarchists Murray Bookchin, Paul Avrich, Jello Biafra, Mollie Steimer, Karl Hess, and poet Kenneth Rexroth. It also discusses the Spanish Civil War, the 1917 Revolution, the influence of Emma Goldman and the case of executed anarchists Sacco and Vanzetti.
