On Saturday night the greek police killed a 15 year old student.

The murder was the last straw.

It was the follow up of a coordinated campaign, a campaign of state terrorism with the help of the fascist organisation "Golden Dawn", which aimed at university students that are fight-ing against the privatization of education, the high school students, the immigrants that are under constant state control because they have the wrong colour, the working class who have to work for a nickel and a dime until they die.

The government praetors who have covered up a lot of crimes against society, who burnt the greek forests in the summer of 2007 are also responsible for the burning of the cities these days. They maintain nepotism. They protect the government people who were involved in the mobile phone interceptions scandal, those looting the public pension funds, those who kid-napped and tortured immigrants and were involved in law, stock market and church scandals.

We are in civil war with the fascists, the bankers, the state and the mass media who want the young people to be submissive and society to be pacified. Although they have no excuses, they try again to use conspiracy theories as well as theories of "irregular attack" in order to calm spirits down.

The rage that has been accumulated through the years had to be expressed and it shouldn't end.

Throughout the world people set their eyes on what is going on here.

People must uprise everywhere.

This generation of poor, unemployed, precarious, homeless and immigrant young people will smash the display window of this society and will wake up the obedient citizens from their sleep of the ephemeral American Dream.

DON'T WATCH THE T.V NEWS, CONSCIOUSNESS RISES IN THE STREETS

WHEN YOUNG PEOPLE ARE MURDERED, THE OLD PEOPLE SHOULD NOT SLEEP

GOODBYE ALEXANDROS, MAY YOUR BLOOD BE THE LAST OF AN INNOCENT TO RUN.
